Hey its skibbity you coward. Just letting you know we can go down this road. But most of the stream is my argument, my voice and yeah you can argue its you stream. Im a creator that was invited on thus giving me the right to upload it as well seeing as you edited it down and ontop of that you never linked my profile anywhere. I suggest you stop trying to intimidate and take your own advice and speak to a legit attourney before you drain the little bit of money you have
